

Because you want to spend less time on the computer... and more time on the sales floor.

The QuickBooks POS Merchant Service is the **ONLY** service that works with your QuickBooks POS system. It does one thing other merchant accounts don't: **SAVES YOU TIME!**

Avoid Errors

With the POS merchant service, credit card sales are processed and recorded directly in your software—you avoid errors that can happen with other services, since they require you to manually enter credit card information in both your QuickBooks POS system and your credit card terminal.

Eliminate Hassle

Month-end reconciliation is faster and clearer since credit card transactions are automatically entered into your software—saving you the hassle of searching line by line for discrepancies between your bank statement and your software.

Get Paid Faster

Approved funds can be deposited in your account in as little as one business day if you have a Wells Fargo checking account. Other accounts can receive their money in as little as two business days.

Gain Control

The FREE, online reporting tool gives you the power to reconcile business checking accounts, investigate chargebacks and conduct daily sales audits. Now view consolidated reporting for up to 10 store locations!¹

Special Pricing

Visit www.posmas.com to see our special pricing for QuickBooks POS customers. You save over traditional merchant services because there are:

- No terminal leases or maintenance fees—all you need is the QuickBooks POS card reader to take advantage of our low, card-swiped rates.²
- No statement fees.
- No cancellation fees.
- No long contracts—you can cancel at any time.

NEW Internet Processing!

Enjoy the flexibility of payment processing over the Internet. Now you have the option to process payments over the Internet eliminating the need for a separate phone line.

How does the QuickBooks POS Merchant Service work?

When a credit card is processed through the card reader, the QuickBooks POS Merchant Service automatically submits the data for authorization. When the transmission is approved, two receipts are printed for your customer, and the sale is recorded automatically into your existing QuickBooks Point of Sale software. Sales information can also be imported into QuickBooks.

Can I use my existing merchant account?

To fully integrate your credit card transaction processing into your QuickBooks Point of Sale software you will need to apply for the QuickBooks POS Merchant Service, powered by Wells Fargo Merchant Services. If you are a current Wells Fargo Merchant, you're *pre-approved!*³ Call 1-800-926-6066.

How do I apply?

You can apply online at www.posmas.com/pap1. The application takes only five minutes and you can have a decision within seconds. Or you can call 1-800-926-6066 from 6 a.m. to 6 p.m. PT, Monday through Friday.

What information will I need to complete the application?

To ensure a speedy process, gather the following information before you begin:

- Your TIN (Tax Identification Number)
- Social Security Numbers for owner(s)
- Business checking account and routing numbers (found on your checks)
- Estimated credit card sales volume

How soon can I begin accepting credit cards?

Once approved, Wells Fargo will email your merchant ID, terminal ID and merchant account number within one business day. You can then begin processing manually. And once you receive your card reader, you can take advantage of the lower, card-swiped rates.

HIGH-VOLUME MERCHANTS:

If you process more than \$500,000 in annual transaction volume, you could qualify for special low rates! Call and let us know at 1-800-926-6066.
